

**A COMPLETE ONLINE
SPORTS PLATFORM
TAILOR-MADE FOR EACH
TRAINER, ASSOCIATION,
SCHOOL OR FEDERATION.**

AS SPORTS COMPANY, ASSOCIATION, CLUB OR INDEPENDENT TRAINER, DO YOU HAVE THE AMBITION TO PREPARE EXERCISES AND SESSIONS OPTIMALLY?

With Online Sports Academy, you can manage your sessions. Develop and plan your exercises, assessments and registrate every detail! You can also upload videos and add your own exercises using the integrated drawing software. Major clubs and associations have already done so!

ABOUT ONLINE SPORTS ACADEMY

In 2009, Online Sports Academy started with online platforms for associations, clubs (large and small), football schools and individual trainers. Meanwhile, Online Sports Academy has developed several online sports platforms for large organizations, such as: AFC Ajax, KNVB, ABN AMRO, Eiffel, various sports companies and several international federations. From that experience and the knowledge that has been built up over the years, we can offer valuable guidance in setting up a structured training plan for different sports.

Online Sports Academy has entered into cooperation with a number of sports organisations. These organisations are working on a complete database of all kinds of exercises for all sports. These exercises are shown through detailed descriptions, videos and animations. The user also has the possibility to use a unique drawing software and the training sessions can be assessed by the supervisor. In this way, the system offers an education platform for trainers. At the same time, athletes (both performance and recreational) are always assured of qualitative and versatile training. An additional advantage is that the content in the platform can be sold through a simple subscription structure.

ADDITIONAL SERVICES

DATA INTEGRATION

In most platforms you don't have the possibility to create your own vision, year planning, structure or learning path, but Online Sports Academy does offer that possibility!

Online Sports Academy has developed the system in such a way that every user can create his own philosophy and yearly goals completely branded in the style of the user. This makes it attractive for sponsors to generate brand awareness or to identify themselves with talent development. You can also create your own training topics, completely according to the philosophy of the user!

COMMERCIAL OPPORTUNITIES

For experts and specialists in sports, we offer the possibility of selling the platform to third parties in various subscription forms via a unique content module. This creates a payback model for the buyer/content writer.

WHITE LABEL POSSIBILITIES

Online Sports Academy offers the possibility to market the user-generated content in different subscription forms. The platform is provided with a link to a payment system. Online Sports Academy also offers the possibility to have the content translated.

SUITABLE FOR

FEDERATIONS & GOVERNMENTS

Governments and federations can make use of their own 'branded' system in different ways. There are clients who invest in the system and use this platform to provide their training.

PHYSIOTHERAPISTS, SPORTS ORGANISATIONS & FEDERATIONS

Both professional and recreational clubs make use of the system. On the one hand, it offers a qualitative and well thought-out curriculum, but on the other hand, it offers the possibility to step away from this and create your own complete annual planning.

PE TEACHERS & INDIVIDUAL TRAINERS

For this target group too, there are various motives to start with Online Sports Academy. Are you active as a trainer of your son's handball team and/or your daughter's hockey team? Then you have the possibility to compile the exercise material for both teams in one single platform.
